**Laminating:** Print sizes 8X10 and above will have a laminate applied as it seals the image against damage. There are 3 types of Laminate a gloss, lustre and a matt finish, examples are at our studios.

The smaller prints (5x7 & 8x6) are supplied gloss but can also be laminated to match other prints.

**Mounting:** If you were thinking of framing your print it is recommended to have it mounted onto a board. This along with the laminate makes the print virtually indestructable.

**Canvas Wrap:** Printed on premium satin canvas, made from a durable blend of 65% Polyester and 35% Cotton, this unique heavyweight, quality canvas utilizes a tight 2-1 weave that is ideal for photographic and fine art reproductions. It is then coated with a protective varnish then mounted onto a stretch frame. 10x8's on 18mm frame and larger wraps on 40mm frame.

**Photo CD: £60.00** Have your images put onto a cd, to view on computer, digital photo frame. Add up to a maximum of ten images. Print code is "CD", just enter the photo reference numbers.

**Postage:** Postage is £3.80 up to 8x10, would have to quote above that size. To guarantee safety of images we would prefer all orders are collected in person.

### Custom Sizes:

If you have a custom size, please contact me and I will quote. My only restriction for in house printing is that one of the dimensions can be no larger than 420mm (17") for prints.

*All printing, laminating and mounting is done in house. The small print up to 8x6 are printed on dye sublimation printers, the larger prints are printed on a large format inkjet printer using UltraChrome K3 inks which claim to be stable for 100 years, if displayed under glass or laminated, Epsoms claim not mine.*
